Sage Patanjali's First sutra

Atha Yoganushasanam:

"Now, the practice of Yoga begins," Are you ready to take your yoga practice beyond Asanas to a deeper, more meaningful level or teach others about the wonderful benefits of classical yoga?

VIVEKANANDA SCHOOL OF YOGA

offers intensive TTC for yoga practitioners to become professional yoga instructors. Our TTC are internationally accredited with International Yoga Alliance India. Trainees who successfully complete the program are eligible to become RYT (Registered Yoga Teachers) and qualify to teach internationally.

Our Vision

*Yoga for Man making and Nation
Building*

Our Mission

*Integrated human Excellence
Through Yoga way of life*

Basic Level-200 Hours Course

Basic TTC is a 200 Hour intensive program comprising of the theoretical and practical hands-on training designed to deepen the practitioners' personal practice and elevate them from student to teacher. Trainees emerge from our TTC as confident teachers with a strong and solid teaching skill set ready to begin their career. The TTC provides a fantastic opportunity to awaken or deepen your yoga practice, meet old and new friends, and to be a part of the global yoga community which is growing each day. The best part of all is learning that everything we need is already within us and how the practices can lead us into the journey within. The experience provides a great way to find long lasting happiness, peace and the ability to share the yogic lifestyle techniques with others.

In conjunction with taking the journey to becoming a teacher, trainees study Patanjali's Eight Limbs of Yoga Philosophy with an emphasis on how you can incorporate this into your own practice and day-to-day life. Daily chanting, meditation and pranayama provide spiritual structure and compliment the more physical practices of the curriculum.

We are entirely dedicated as a team to providing each individual student with the care and attention required to attain a high level of knowledge and teaching competence. We recognise that each trainee is as unique as each student they will go on to teach and this is a major success factor for our graduates.
